WHY BROWN CRUST DOORS AND FRAMES

S.NO	CONSUMER PROBLEMS	BROWN CRUST APPROACH TO RESOLVE PROBLEM
1	Black mailing of carpenters like: misguidance in type and rate of timber.	The possessor of Brown Crust is in this field from last 35 years therefore does not follow these cheap business tricks for earnings. By using our experience we solve the problem of 'misguiding in type and rate of timber'.
2	Termite and water resistant.	While doing the production Brown Crust uses termite and water resistant chemicals in its resins and glue which makes Brown Crust designer doors termite and water resistant.
3	Breakage of product due to miss handling during installation	Brown crust takes the responsibility of the installation therefore all the claims raised during installation will be looked after by Brown Crust
4	Bending, expansion separation crack or shrinkage of doors due to improper seasoning	Brown Crust has in built kiln seasoning chambers of 4000-cft in its 7200 square yard plant in which the moisture gaining pores of the timber are heated till it is dead. Doors and frames made from those season wood never bends, expands, shrink, separate or crack.
